Education

resume-education(university: “Shoolini University, Himachal Pradesh” , degree: “Bachelor of Computer Applications (BCA)” , start: “2025-08” , end: “2028-05”)

Technical Skills

- Languages: TypeScript, JavaScript, Python, SQL, HTML5, CSS3
- Frontend: React, Next.js, Responsive Web Development
- Backend: Node.js, Express.js, REST APIs
- Databases: PostgreSQL, Supabase, MongoDB, pgvector
- AI: Gemini API, RAG Systems, Embeddings, Prompt Engineering
- Tools: Git, Postman, Vercel, Render

Projects

Vizo AI — AI-Powered STEM Tutoring Platform | Sole Developer · GitHub · Live

- Built and launched an AI tutoring platform supporting CBSE, IGCSE, AP, IB, and OpenStax curricula.
- Developed a Retrieval-Augmented Generation (RAG) pipeline using Gemini Embeddings and pgvector for syllabus-aware responses.
- Architected the full-stack application using Next.js, Supabase, authentication, subscriptions, and secure API infrastructure.

Evalyze — AI Answer Sheet Evaluation Platform | Sole Developer · GitHub · Live

- Built an AI-powered grading platform that evaluates answer sheets using Gemini Vision.
- Implemented classroom management, role-based authentication, and automated submission workflows.
- Generated AI-driven scoring, feedback, and performance analytics from uploaded PDFs and images.

peer&shelf | Sole Developer · GitHub · Live

- Built a full-stack student marketplace using Next.js 15, TypeScript, and MongoDB to streamline sharing study materials and connecting with mentors.
- Integrated Google Cloud Vision OCR and Open Library APIs for automated book scanning and instant textbook metadata extraction.
- Developed RESTful APIs with regex-powered MongoDB .

Production-Grade Node.js Authentication System | Author & Developer · GitHub

- Built a production-ready authentication system using Node.js, Express, JWT, Redis, and BullMQ.
- Implemented refresh token rotation, Redis-backed token blacklisting, CSRF protection, and rate limiting.
- Developed a React frontend with protected routes, automatic token refresh, and secure session management.
- Documented the architecture and implementation as a technical ebook for developers.

About

- Full-stack developer focused on AI-powered web applications and SaaS products.
- Built and deployed multiple production applications using modern web technologies and LLM integrations.
